

# TOOLING YOUR TUESDAY

Pricing valid **Tuesday, March 28, 2023** only, while quantities last.

## 6" Precision Milling Machine Vise

Newly redesigned, our GS160G Vise is packed with industry-leading workholding features and has a clamping force of 9,240lbs.

- Narrower body style to allow more vises on a machine table.
- The bearing pack has been relocated to help reduce oil/water/chip leakage into the vise body.
- The thrust bearings have been replaced with ball bearings. This makes the pack more stable, stronger under pressure, and able to withstand the knock of a handle without breaking.
- Spherical segment creates all-directional alignment and reduces jaw lift for improved performance.
- Spindle does not protrude past the end of the body.
- Brush seal design.
- Stationary jaw: 4 bolt stationary design reduces lift.
- Pull-type design: Reduces stress on body during clamping.

Reg. Price: \$904.63

Code No.: 327320

**\$675.00**
